---

Over the past year I have had the privilege of working with STOCK in several different areas of the business. Our facility introduced a new product line that would rely heavily on some of our STOCK Rotomats that had been pulled out of service. The crew from STOCK worked closely with our team in providing a recommended spare parts list and expert service to bring the units back into service. I continually call on STOCK for questions and emergency needs and they have always provided quick and immediate response. Recently, STOCK has worked together with our staff to work on continuous improvement projects and to train mechanics on proper maintenance of the Rotomats. The success of our product line has relied heavily on the joint venture that we share with STOCK and their expert staff.

I look forward to a continued partnership with a great organization.

Thanks,

*William Seibert*
